

September 21, 2025: On One Method of Proof

One method of proof that is continuing to be used against our home is the constant 'meeting' of our movement within our house by a vehicle to match our timing. This also occurs in the public as well as people 'meet' us at every location we travel to and show us subtle 'signs' that they are following us.

This is persistent and consistent as a very constant proof of 'oversight' over our personal home as we move toward the front door, a car meets us at the front door at the same moment.

Additional proofs are shown on a daily and hourly basis to the point that the 'effect' that is produced is that a machine is literally driving vehicles past our home to match our movement at all times. And, that a group of people are being coordinated to follow us around like shepherds herding us as a sheep at all times.

Donald Trump and Elon Musk: I truly and wholeheartedly despise your entire operation. What you are proving yourselves to be at this point is beyond the depths of anything we, the People, could ever have dreamt up on our own. You two are clearly operating in some other realm of evil plot and I cannot describe the disgust that you have created. May all of your actions be revealed to the light of day and may you both rot in hell ever after. Since you lived your lives as demons, the fitting place for you both is literal hell.
